Notice of Allowance

Claims 1-13 are allowed for the reason the prior art does not teach in claimed combination, "... a device, responsive to a user request, for recording a requested item on a hardcopy medium, wherein for each item requested to be recorded the device generates a cover sheet, wherein the cover sheet comprises a hardcopy medium having human readable marks identifying the requesting user, the item recorded and the knowledge management service associated with the requested item..."

Claims 14-18 are allowed for the reason the prior art does not teach or suggest in claimed combination, "... generating a cover sheet comprising recording human readable marks identifying the requesting user, the item recorded and the knowledge management service associated with the requested item on a hardcopy medium."

Claims 19-21 are allowed for the reason the prior art does not teach or suggest in claimed combination, "... if the criteria for generating a recommendation is met, generating a recommendation of a new item and generating a cover sheet, wherein the cover sheet comprises a hardcopy medium having human readable marks identifying the requesting user, the requested item and the recommendation of the new item."

Claim 22 is allowed for the reason the prior art does not teach or suggest in claimed combination, "... human readable marks comprising a recommendation of a new item, wherein the recommendation service, responsive to the initial user request for recording an item on a hardcopy medium, stores an implicit rating for the requested item, determines whether, based on the implicit rating and the recommendation criteria, to generate an item recommendation, and if the criteria for generating a recommendation is met, generates a recommendation of the new item; and the hardcopy medium further having a region for receiving machine readable, user imparted or modifiable marks, wherein, responsive to the region having been read and user imparted marks having been found, the recommendation service determines whether an explicit rating of a recorded item has been read, and if so the recommendation service stores an explicit rating for the recommended item.

Claim 23 is allowed for the reason the prior art does not teach or suggest in claimed combination, "... human readable marks comprising a knowledge management service associated with the requested item, wherein the knowledge management service, responsive to the initial user request for recording an item on a hardcopy medium, stores a record of the user request with an electronic version of the requested item in a repository.."
